

What I Remember

Lyrics by Jim Croegaert

What I remember
Are nights we were driving or walking
And I remember
We solved so much just by talking
And we had our dreams
Of what would come to pass
When what would really last
Was the love and the laughter

What I remember
Is a smile that could warm anybody
And how it warmed me
Sometimes when the cold was upon me
And we did not know
How quickly it would fly (to)
Recalling with a sigh
The love and the laughter

What I remember
Is someone who through hell and high water
Kept on fighting
Not just for yourself but for others
And cancer could not break
The life it came to take
For even though we ache
The love and the laughter

Are what we remember
